

PRESS RELEASE**European WealthBriefing Awards 2014
ERI wins in the "Transaction Processing" category**

ERI, with its OLYMPIC Banking System, has been crowned best in the "Transaction Processing" category for 2014 by WealthBriefing, the online journal and news website, during their European Awards ceremony.

The judges' citation reveals that ERI operates a very efficient system. It is seen as a market leader because of the way it has integrated its solution with others.

Commenting on the award, Nicholas Hacking, Director, ERI said: "We are delighted to have been voted the winner of this prestigious award by so many of the industry's thought-leaders. Our work in partnership with our customers has resulted in continuing investment in the OLYMPIC Banking System in the last few years, both technical and functional. We have added very significant functionality to further assist the banks in meeting the costs of regulatory pressure while helping them control costs by facilitating integration. It is a great satisfaction for our teams to have their efforts rewarded".

Showcasing 'best of breed' providers in the global private banking, wealth management and technology sectors, the awards were designed to recognise companies, teams and individuals which the prestigious panel of judges deemed to have 'demonstrated innovation and excellence'.
