WealthBriefing Asia Awards 2018

ERI winner in the Transaction Processing category

ERI, with its OLYMPIC Banking System software package, has been crowned best in the "Transaction Processing" category by WealthBriefing, the leading online journal and news website dedicated to serving the Private Banking and Wealth Management sector.

The jury stated: "With about 40 per cent of its 400 staff working in research and development, this firm is not resting on its laurels but continuously looking to improve. An unstinting focus on the client's convenience is a hallmark".

Showcasing 'best of breed' providers in the global private banking, wealth management and trusted advisor communities, the awards were designed to recognise companies which "have demonstrated innovation and excellence" during 2017.

Nicholas Hacking, Director, commented: "We are proud, yet again, to have been voted the winner of this prestigious award by independent experts in Asia. This just goes to show how the application is consistently judged to be a winning solution for organisations active in Wealth Management and Private Banking."
