

PRESS RELEASE

For immediate release

April 2009

ACM has selected OLYMPIC Banking System

ERI is pleased to announce that a leader in the field of on-line currency trading, Advanced Currency Markets SA (ACM) has decided to opt for OLYMPIC Banking System as its core transaction processing solution.

ACM (ac-markets.com), which boasts more than 200 staff world-wide, is delighted with this partnership, which enables its current and future clients to benefit from the best in services and technologies in this field. ACM will benefit from complete synergy between ERI's know-how and that already utilised for the development of its own Trading platforms.

Already chosen by over 280 banks and financial institutions in more than 45 countries, OLYMPIC Banking System gives ACM a significant advantage over other on-line banks and brokers, due in particular to the fully integrated management of front, middle and back office functions, including e-services.
