February 2011

Centrum Bank successfully migrates to OLYMPIC Banking System

ERI is delighted to announce that Centrum Bank (Schweiz) AG has successfully migrated to the OLYMPIC Banking System software application. Last year Centrum Bank (Schweiz) took the decision to in future use the same banking software as its parent company in Vaduz and obtain the BPO (Business Process Outsourcing) through the latter.

Thanks to the close collaboration between the bank's technical and business representatives and ERI's installation team, the go-live took place just 3 months into the project.

Centrum Bank (Schweiz) AG is a private bank incorporated under Swiss law and an independent subsidiary of Liechtenstein's Centrum Bank AG. Its private banking operation includes wealth management and investment advice for private and institutional investors.
