Banque SCS Alliance selects OLYMPIC Banking System

ERI is pleased to announce that Banque SCS Alliance has selected the OLYMPIC Banking System solution as the Bank's Main Information System.

The Bank, currently using outsourcing for its Back-Office and to manage its Information System, wished to regain control of its operations by combining its Back-Office activities with an integrated, flexible and scalable solution.

Specialising in the wealth management sector, the Geneva-based Bank wished to install new software that met its requirements in terms of both functionality and technology. ERI was selected as a partner with its OLYMPIC Banking System, thereby guaranteeing a high level of functionality.

Thanks to this decision, SCS Alliance will be able to pursue its strategy of growth both in Switzerland and internationally.
